

Almaden
The strongest
glass-glass
Photovoltaics
module

THINNER STRONGER AND MORE RELIABLE

Our Advantages

Super Weather Resistance

Absolute water-proof, Anti-corrosion by acid, alkaline and ammonia, Anti-friction. Better thermal dissipation. 30+ years without worry.

PID Free

Potential induced degradation(PID) free guaranteed.

Micro-Crack Free

No micro-cracks under harsh transportation, complicated handling and installation conditions, and during lifetime module operation.

Fire Class A

Glass-glass design helps to save module from damages caused by arc and hot spots, eliminating potential dangers of fire.

Cleaning with ease

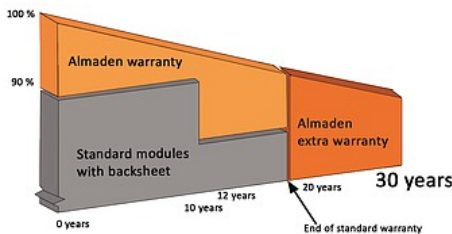

Frameless design, no dust and snow trapped on the edge. Easy to clean the snow.

Esthetics

This module can be adapted to all kinds of architecture projects. It's possible to make the module as semi-transparent module.

Extended warranty

30 Year Module Guarantee

Specification

Power output: 265 - 290W
Dimension: 1662 mm x 990 mm x 5 mm
Weight: 19.6 kg
Glass's thickness: 2 mm x 2
One pallet: 38 pieces

Almaden®

Company highlight

2006 Founded in Changzhou, China

2011 Listed in Shenzhen A shares stock.

2015 Dubai factory branch founded

2016 Production capacity: 1500 mega watts per year. It owns more than 200 mega watts of solar power plant.

Official Partner in Switzerland
